Press Note.

The attention of Government has been drawn to cartoon in a local newspaper representing the Electrica Department as a Shylock in the matter of effecting discon nection for non-payment of arrears. The cartoon indicate that the departmental men turn up after night-fall fo disconnection. Government wish to point out that this entirely incorrect, since disconnections are always done i the mornings to enable the consumers to make payment in the afternoon and get the re-connection to their insta lations the same day. The consumers are given a clea fourteen days' time from the date of the receipt of the bil to clear them. It is only after the fourteenth day that th disconnections are made. It may also be noted that if an when consumers produce the necessary vouchers or mone order receipts or counter foils of cheques to show that pay ments have been made, disconnections are not effected.
